

<b>PROJECT TITLE</b>	New Health & Education Facilities
<b>CLIENT</b>	Strode College
<b>ARCHITECT</b>	NVB Architects
<b>CONTRACT VALUE</b>	£310,000
<b>COMPLETION</b>	August 2021

---

This project was the refurbishment of block E to create new specialist simulated Healthcare teaching facilities and refurbishment of the 1st floor to create additional science laboratories with specialist fume cupboards and work areas.

The ground floor created a suite of four hospital beds with a supporting dispensary, nurse call station, changing area and staff room. Three small existing Classrooms converted in two larger classrooms. The existing teaching area on the first floor was remodelled to provide a new science lab and administration area. The works included new mechanical and electrical works along with new flooring, new partitions and decorated throughout.

***The project was completed on time in a 10 week programme period and within budget and has resulted in further works being negotiated with the college***
