

PROJECT TITLE	Manor Court Primary Windows Replacement - 1651
CLIENT	Preston Primary Academy Trust
ARCHITECT	Leaver Consultancy
CONTRACT VALUE	£207,132
COMPLETION	2020

This project was within a live educational setting, and involved replacing all of the windows, and some doors throughout the whole site. The project was planned in stages to ensure minimal disruption for the client and students, but as we progressed there was some changes to the programme to accommodate the needs of the school. Each phase consisted of protecting all flooring, school equipment and property and then removing the old windows and boarding the area to ensure safety and security. While removing some of the windows we came across areas requiring some extra attention, for example, repairs to the old stone window ledges and bricks.

The work on site has been excellent! 5* Manor Court Primary School
