

<b>PROJECT TITLE</b>	Charfield, Co-op
<b>CLIENT</b>	MJ Fews Ltd
<b>ARCHITECT</b>	David James & Partners
<b>CONTRACT VALUE</b>	£680, 000
<b>COMPLETION</b>	2022

The works involved the erection of a new store shell and associated car parking. The store consists traditional concrete foundations with Masonry cavity fair faced blockwork and brickwork part rendered externally. The internal blockwork has been painted to RAL 7043. The ground floor slab is Concrete pre-cast slab units with insulation and screed over.

The roof is constructed with trussed rafters with insulated sheet panels. No windows or doors have been fitted and internal M&E works will be carried out with the fit-out contractors. Externally a new car park and entrance for the store has been constructed with Store storage area and new loading bay with pedestrian ramp. External lighting has also been provided.
