

PROJECT TITLE	Avalon Plastics - 1644
CLIENT	Avalon Plastics
ARCHITECT	Wotton Donoghue Architects
CONTRACT VALUE	£366,199
COMPLETION	2020

This project was undertaken for a local client based in Glastonbury, and was an extension to their existing factory due to the growth of the business. The works were completed whilst the factory was still functioning. This was a JCT with contractors design contract, we designed the mechanical and electrical package for the project, along with elements of the steel works. The project included alterations to the drain systems, building a retaining wall, undertaking associated external works, as well as constructing the main structure.
